

# COVID-19 Manufacturer Recovery Assistance

Across the state, the University of Tennessee Center for Industrial Services' (UT CIS) Solutions Consultants are contacting over 1500 small and medium sized manufacturers by phone and Zoom to assess their situations and needs, and to identify ways that we can help.

UT CIS has been awarded special CARES Act funding through the Manufacturing Extension Partnership to provide this help to manufacturers in order to alleviate impacts from COVID-19 and strengthen their resiliency.

To help meet the identified needs, UT CIS will deliver services to manufacturers at **no cost** to them. Potential services include back-to-work safety planning, supply chain risk mitigations, workforce systems, process improvement, and other customized assistance.

To schedule an assessment today or to learn more, contact your Solutions Consultant using the regional map below. You can also visit [www.cis.tennessee.edu/COVIDassessment](http://www.cis.tennessee.edu/COVIDassessment) to get started.
